

MIDAS # 5128

DEER POND

KING & BARTLETT (T4R5), SOMERSET CO., ME.

AREA 30 ACRES

DEER POND

King and Bartlett Twp., Somerset County
U.S.G.S. King and Bartlett Mtn., Maine (7½')

Fishes

Brook trout

Minnows
Lake chub
Finescale dace

Physical Characteristics

Area - 30 acres

Temperatures:

Maximum depth - 41 feet

Surface - 73°F
40 feet - 43°F

Principal fishery: Brook trout

Deer Pond is located southeast of Camera Hill. The pond has no inlets, but an outlet flows west into nearby Rush Pond and eventually into Butler Brook. The pond's shoreline is undeveloped.

An oxygen deficiency in Deer Pond occurs 15 feet below the surface during the summer months. Despite this the pond supports coldwater gamefish. Spawning and nursery habitat is present for the native brook trout population to utilize and maintain a fishery. Growth is good with only light competition from minnows. The pond is not stocked.

Deer Pond is accessible via private gated roads off the King and Bartlett Road. The pond is open to fishing with artificial lures only in the summer months and closed to ice fishing. See the lawbook for special regulations.

Surveyed - July, 1973

Resurveyed - 1995
